

LEITHON ENGLISH

Full-Stack Developer

PERSONAL DETAILS

I love bringing ideas to life and seeing how they make a positive impact on others. I'm always up for trying new things and getting feedback – that's how you grow, right? I'm all about growth! My goal is to enjoy every project I take on because when you love what you do, you do it well.

ACADEMIC HISTORY

Big Nerd Ranch

IOS ESSENTIALS WITH SWIFT, 2016

MongoDB University

MONGODB FOR .NET DEVELOPERS, 2015

University of Technology, Jamaica

PERSONAL INTERESTS

I enjoy the simple joys in life – playing football, exploring new places, and spending quality time with friends and family. During the week, you'll find me volunteering to make a positive difference. Life is an adventure, and I like to make the most of every moment.

WORK EXPERIENCE

HIMS & HERS INC.

Senior Frontend Engineer

October 2022 to Present

- Co-led the transition of the company blog to Next.js, doubling site performance and SEO effectiveness, which resulted in doubling page visits and improving Lighthouse scores from the mid-50s to over 90
- Developed features focused on customer retention, boosting user engagement, and reducing churn.
- Significantly enhanced application functionality by strategically refactoring and optimizing numerous TypeScript components, dramatically improving codebase extensibility and multiplying component reusability across various modules.

GATSBY INC.

Senior Frontend Engineer

August 2021 to July 2022

- Develop and enhance cloud service features, both new and existing.
- Execute design implementations for MVP products.
- Address and resolve user support issues.
- Upgrade backend services and plugins, resolving bugs.
- Integrate new functionalities into the core framework.

MEDULLAN LTD.

Senior Software Engineer

May 2016 to August 2021

- Integrated Dialog Flow in a large Drupal-Vue JS app.
- Led UI development, upskilling colleagues and driving sustainable tech adoption.
- Spearheaded multiple proof-of-concept projects facilitating the company's tech transition.
- Played a pivotal role in UI implementation for various native mobile applications while improving the company's website.

EGOV JAMAICA LTD.

Software Engineer

April 2014 to April 2016

- Showcased the efficacy of contemporary technologies.
- Maintained and improved core legacy systems.
- Upgraded older applications for compatibility with modern browsers.
- Assisted colleagues with mobile development.

INTERACTIVE PAYROLL SOLUTIONS LTD.

Software Engineer

June 2012 to April 2014

- Researched and implemented POCs for the company's V2 application.
- Overhauled, updated, and maintained the company's website.
- Developed a streamlined CRM system.
